

Speed Distance Time

Please write clearly in block capitals

Forename:

Surname:

Materials

For this paper you must have:

- mathematical instruments

You **can** use a calculator.

Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- You may ask for graph paper, tracing paper and more answer paper. These must be tagged securely to this answer book.

Advice

- In all calculations, show clearly how you work out your answer.

- 1(a)** How long would it take you to travel 3 kilometres, if you walked at 6 km/h
Give your answer in minutes.

[1 mark]

Answer _____ minutes

- 1(b)** What is Laura's average speed if she travels 126 miles in 2 hours?

[1 mark]

Answer _____ mph

- 1(c)** Emma travels at a speed of 23 miles per hour for 3.5 hours.
How far has she travelled?

[1 mark]

Answer _____ miles
