

Symmetry

Please write clearly in block capitals

Forename:

Surname:

Materials

For this paper you must have:

- mathematical instruments

You **can** use a calculator.

Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- You may ask for graph paper, tracing paper and more answer paper. These must be tagged securely to this answer book.

Advice

- In all calculations, show clearly how you work out your answer.

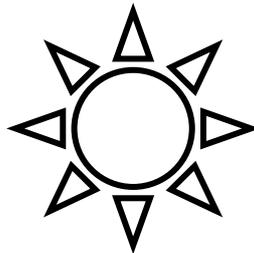

1(a) Draw all lines of symmetry on the rectangle below.

[2 marks]

1(b) State the order of rotational symmetry of the shape below.

[1 mark]

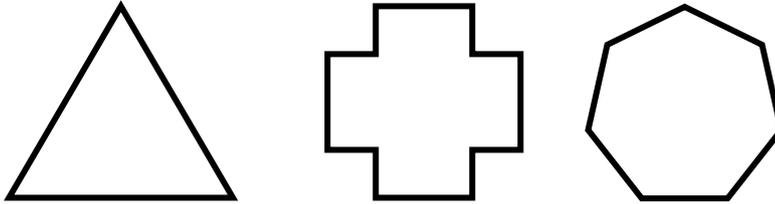

Answer _____

Turn over for next question

2(a) Circle the shape with the most lines of symmetry.

[1 mark]

2(b) Draw a three sided polygon with rotational symmetry order 1.

[1 mark]

GCSE Maths Revision Cards

- ✓ All major GCSE maths topics covered
- ✓ Higher and foundation
- ✓ All exam boards - AQA, OCR, Edexcel, WJEC

Get them at mme.la/cards or scan the barcode

3(a) How many lines of symmetry does an octagon have?

[1 mark]

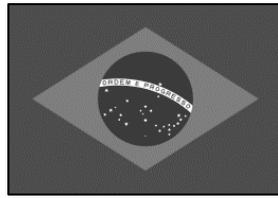

Answer _____

3(b) List the following rectangular flags in ascending order of lines of symmetry.

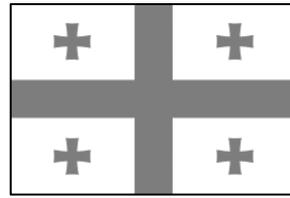

[1 mark]

Antigua and Barbuda

Brazil

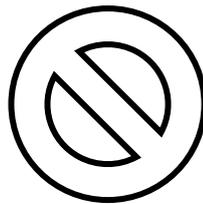

Georgia

Least _____, _____, _____ Most

3(c) State the order of rotational symmetry for the following shape.

[1 mark]

Answer _____

Turn over for next question

- 4(a)** How many lines of symmetry does a regular polygon with n sides have?
Give your answer in terms of n .

[1 mark]

Answer _____

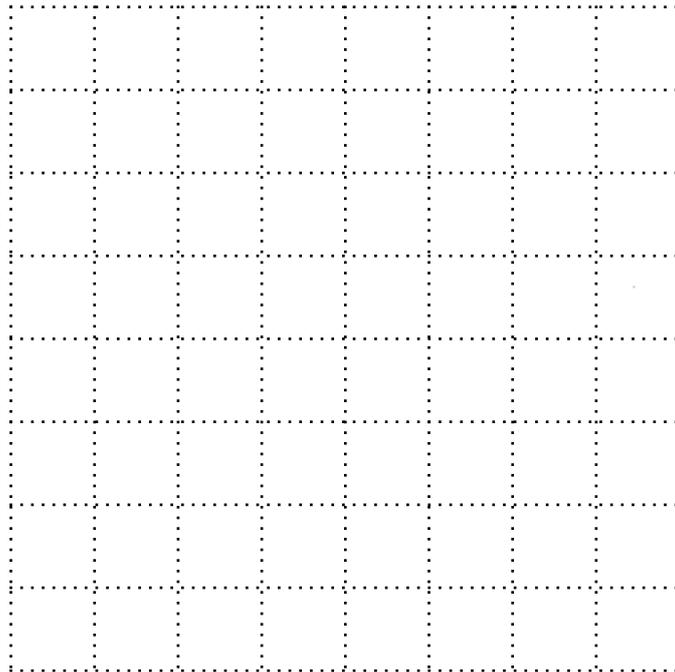

- 4(b)** State the order of rotational symmetry of a square.

[1 mark]

Answer _____

- 4(c)** Draw the net of a die, such that the net, has order 2 rotational symmetry and 0 lines of reflectional symmetry.

[2 marks]

Turn over for next question

5(a) Name the type of triangle that can have one line of reflective symmetry.

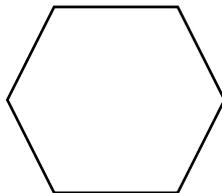

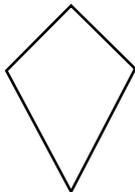

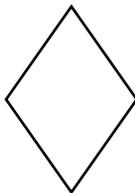

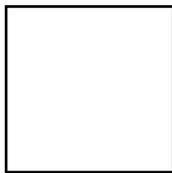

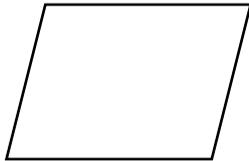

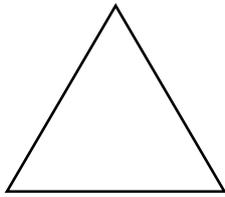

[1 mark]

Answer _____

5(b) The descriptions of 4 shapes are shown below.

Match each of the following descriptions to the correct shape it's describing.

[3 marks]

Rotational Symmetry Order 2
0 Lines of Symmetry

Rotational Symmetry
order 1
1 Line of Symmetry

Rotational Symmetry
Order 2
2 Lines of Symmetry

Rotational Symmetry
Order 4
4 Lines of Symmetry

6 Jenn is exploring symmetry. She is drawing a shape. She says:

*“The shape I am drawing is a regular polygon.
The sum of its interior angles add up to 540 degrees.”*

6(a) What shape is she drawing?

[1 mark]

Answer _____

6(b) What is the order or rotational symmetry of Jenn’s shape?

[1 mark]

Answer _____

6(c) Jenn starts to look at the symmetry of letters.

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

State two letters with at least two lines of symmetry.

[1 mark]

Answer _____, _____

6(d) State two letters with order of rotational symmetry 2

[1 mark]

Answer _____, _____
