

Types of Numbers

Please write clearly in block capitals

Forename:

Surname:

Materials

For this paper you must have:

- mathematical instruments

You **can** use a calculator.

Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- You may ask for graph paper, tracing paper and more answer paper. These must be tagged securely to this answer book.

Advice

- In all calculations, show clearly how you work out your answer.

1 Consider the numbers below

 π $\sqrt{144}$ $\sqrt{81}$

0

 $\sqrt{-2}$ $\sqrt{1000}$

1(a) Write down the numbers which are rational.

[1 mark]

Answer _____

1(b) Write down the numbers which are irrational.

[1 mark]

Answer _____

Turn over for next question

2(a) \sqrt{m} is an integer.

Given that the value of m lies between 29 and 39.

Write down the value of m .

[1 mark]

Answer _____

2(b) Which of the following are irrational numbers between 1 and 2?

$$\sqrt{2}$$

$$\sqrt{3}$$

$$\sqrt{5.25}$$

$$\sqrt{4}$$

You may select more than one answer.

[1 mark]

Answer _____

Turn over for next question

3 Consider the expressions below

$$2\sqrt{4}$$

$$-\frac{2}{5}$$

$$\sqrt{7}$$

$$\sqrt{7}$$

3(a) Show that one of these expressions is an integer.

[1 mark]

Answer _____

3(b) Two of the expressions shown above are multiplied together to produce an integer. Identify which two expressions.

[1 mark]

Answer _____ and _____

GCSE Maths Practice Exam Papers

- ✓ GCSE Maths predicted papers and mark schemes
- ✓ Paper 1, 2, 3 and mark scheme in every set
- ✓ All exam boards - AQA, OCR, Edexcel, WJEC

4 Consider the equation below

$$x^2 + 3y = 10$$

4(a) By use of trial and improvement or otherwise, find a solution for x and y which gives a rational solution.

[1 mark]

Answer _____

The following equation has no integer solutions:

$$6x + 3y = 5$$

4(b) Provide a solution for x and y which gives a rational solution.

[1 mark]

$x =$ _____ $y =$ _____

Turn over for next question

- 5 Consider the triangle below.
The perimeter of the triangle is 13.6 cm

Not drawn
accurately

- 5(a) Is x an integer?
You must show your working

[2 marks]

Answer _____

- 5(a) Is x a rational or irrational?
You must explain your answer.

[2 marks]

Answer _____

Turn over for next question

6 Consider the statements below.

For each of the statements, tick whether they are always true, sometimes true or never true.

[5 marks]

	Always true	Sometimes true	Never true
Rational + Irrational = Rational	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Integer + Rational = Rational	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rational \times Rational = Integer	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Irrational \times Rational = Rational	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Irrational + Irrational = Rational	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

GCSE Maths Revision Guide

- ✓ GCSE Maths Course 9-1 Revision Guide
- ✓ Exam Questions Included
- ✓ All exam boards - AQA, OCR, Edexcel, WJEC
- ✓ Suitable for higher and foundation tiers
