# Nina's Knitting Supplies

Nina runs a successful business selling knitting wool and sewing products. She opened her first shop 15 years ago. The business has grown organically and now sells products from 10 shops and a website. Nina uses market segmentation to target customers. Nina employs 80 people. She works hard to meet the shared objectives of her employees, as well as external stakeholder groups such as customers, suppliers, lenders and the local community.

Nina produces a weekly update that is sent by email to all employees every Friday. The updates contain information about the future development of the business, plus other stories of interest to employees. Recent stories include congratulating an employee on the birth of a child and the charity fundraising activities of one shop.

Nina plans to develop the business further over the next five years, especially as knitting is becoming an increasingly popular pastime. This has led to more competitors entering the market.

#### **HSBC**

HSBC offers a range of banking and financial services for personal and business customers. The bank has branches in many cities and towns across the UK.

Employing the best people is important to HSBC. It uses several methods to select new employees. Once appointed, all employees are offered training and development opportunities that include studying for academic qualifications such as degrees and professional diplomas.

Over 70% of HSBC's call centre employees in the UK have begun working from home permanently. Before this change the employees worked together in a busy call centre. The tasks performed by call centre employees are varied, but include taking telephone calls from customers and completing administrative work, such as opening new bank accounts. Senior managers are now considering whether to introduce working from home for all of its UK call centre employees.

#### Walkers Snack Foods Ltd

Walkers Snack Foods Ltd (Walkers) manufactures well-known snacks, including Walkers crisps, Quavers and Wotsits. The company has a market share of more than 50% of the UK potato snack market. The company aims to maintain its market share and to increase profitability.

Walkers uses different marketing strategies as the snacks move through the stages of the product life cycle. Flavours are regularly added to Walkers' range of crisps, often trialling new flavours before launching them. Recent examples have included 'fish & chips' and 'chicken burrito' flavours.

Walkers have responded to concerns about healthy eating by adapting its product range, including:

- recipe changes to reduce added salt by 25% and saturated fats by up to 70%
- a reduction in bag size
- multipacks now containing 22 bags rather than 24, with no change in price.

These changes were supported by a marketing strategy which affected all elements of the marketing mix.

An independent market research company arranged focus groups in both 2017 and 2022 to look at healthy eating trends. It found that:

- 46% of people were concerned about healthy eating in 2017, compared with 60% in 2022.
- In 2022, 36% of people considered whether a snack was healthy before buying it.
- In 2017, 26% of people thought that snack companies were trying to produce more healthy products. By 2022 this figure had increased to 29%.

#### **Copyright Information**

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download from our public website (www.ocr.org.uk) after the live examination series. If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible

opportunity.
