**Selective Eligibility Test (SET) Information
for Candidates**

The **Selective Eligibility Test (SET)** will consist of around 60 questions and be split into four sections. The test will last for 1 hour and candidates will be told when to start and finish each section.

Section A: English (comprehension)

Section B: Mathematics

Section C: Verbal reasoning

All questions will be multiple choice. In each section, candidates will have to work out which is the correct answer from five possible options.

The test comprises a question booklet and an 'ANSWER SHEET'. The answer sheet will require you to use a HB pencil. The machine that reads the answer sheet cannot see anything else.

The numbers of the answer sheet will correspond to the question numbers on the Test paper. Each number on the answer sheet will have boxes A, B, C, D and E for you to fill in your answer. You must place a solid black mark on top of the letter that corresponds to your answer only. One mark on top of the letter should be entered for each question, **unless stated otherwise in the question.**

Example

If you think the answer to a question is B, put a solid black mark through the B as shown below:
