TOTAL

Unit 2 Hostile world and Investigating the shrinking world

Wednesday 3 June 2015 1.30 pm to 3.00 pm

For this paper you must have:

- the insert (enclosed)
- a ruler.

You may use a calculator.

Time allowed

• 1 hour 30 minutes

Instructions

- Use black ink or black ball-point pen. You may use pencil for maps, diagrams and graphs.
- Fill in the boxes at the top of this page.
- Answer two questions: one question from Section A and one question from Section B.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.
- Use case studies to support your answers where appropriate.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 86.
- You will be marked on your ability to:
 - use good English
 - organise information clearly
 - use specialist vocabulary where appropriate.
- Spelling, Punctuation and Grammar will be assessed in questions 1(g), 2(f), 3(e) and 4(e). The marks available for Spelling, Punctuation and Grammar (SPaG) are shown below the mark allocation for each question.

Section A - Hostile world

Answer one question from Section A, either Question 1 or Question 2.

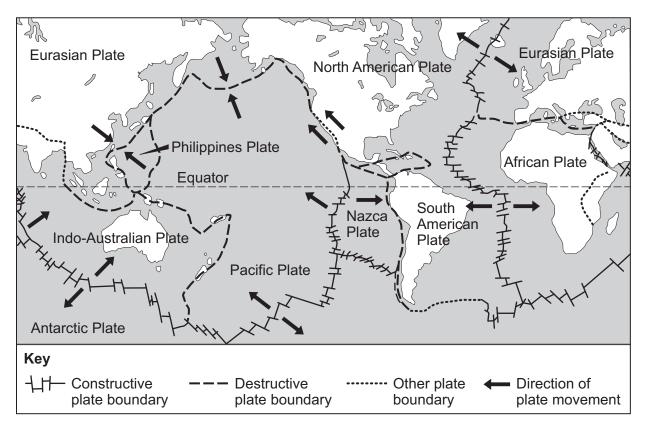

Use case studies to support your answers where appropriate.

Total for this question: 43 marks

Living with natural hazards

1 Study **Figure 1**. **Figure 1** shows the locations of plate boundaries.

Figure 1

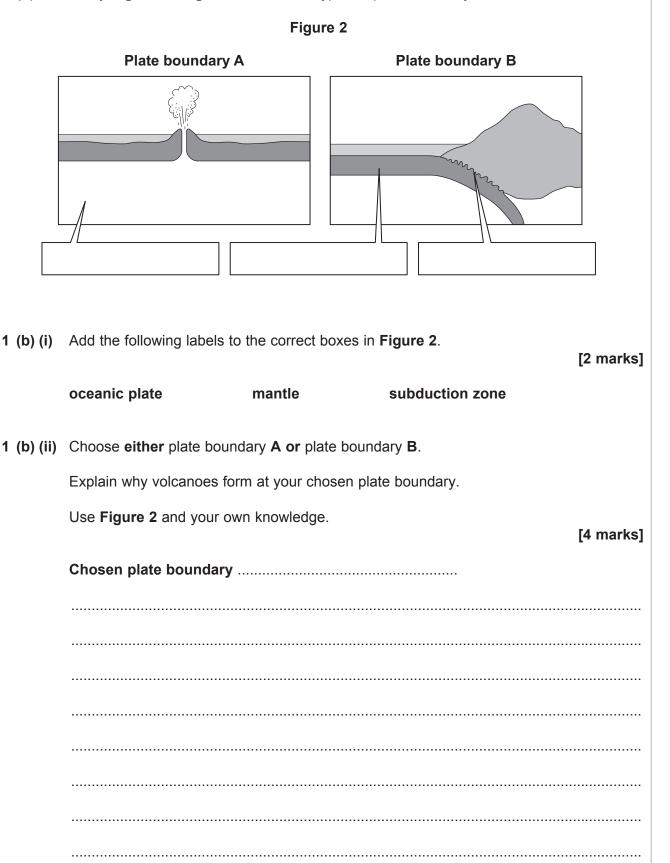

1 (a)	With the help of Figure 1 , describe the distribution of plate boundaries. [3 marks]
	Question 1 continues on the next page

1 (b) Study Figure 2. Figure 2 shows two types of plate boundary.

	Extra space
1 (c)	Explain how the damaging effects of earthquakes can be reduced. [6 marks]
	Extra space
	Question 1 continues on the next page

1 (d) Study Figure 3. Figure 3 shows tropical storm tracks.

Figure 3

1 (d) (i)	Describe the distribution of tropical storm tracks.	[2 marks]
1 (d) (ii)	Describe the possible effect of climate change on tropical storms.	[3 marks]

1 (e)	Describe the primary effects of a tropical storm.
	Use an example(s) of a tropical storm that you have studied. [6 marks]
	Extra space
	Question 1 continues on the next page

1 (f)	Study Figure 4 in the insert. Figure 4 shows a tropical storm shelter.
	Suggest how the tropical storm shelter shown in Figure 4 reduces the risks to people from tropical storms.
	[2 marks]
1 (g)	Study Figure 5 in the insert. Figure 5 gives information about wildfires in south-east Australia.
	Natural factors are the main reason why south-east Australia is affected by wildfires.
	Do you agree with this view? Give reasons for your decision.
	Use Figure 5 and your own knowledge.
	[8 marks] [SPaG 3 marks]

		Question 1 cont	inues on the ne	ext page	

1 (h) Study Figure 6. Figure 6 gives information about wildfires in south-east Australia.

Figure 6

A wildfire has destroyed at least 33 homes in New South Wales, damaged an observatory and forced staff to evacuate. Fires are also burning in Victoria and Tasmania, where a firefighter died tackling a blaze. A wildfire in the Coonabarabran area burned through 40 000 hectares of grassland and woodland, home to many wildlife species. The smoke from the fire extended 14 km into the air. Extra firefighters, along with helicopters from neighbouring areas, have been brought in to tackle the blaze.

Suggest how the damaging effects of wildfires can be reduced.				
Use Figure 6 and your own knowledge.				
[4 marks]
