## GCSE MARKING SCHEME

AUTUMN 2016

MATHEMATICS (NEW)<br>UNIT 1 - INTERMEDIATE TIER<br>3300U30-1

## INTRODUCTION

This marking scheme was used by WJEC for the 2016 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

| GCSE MATHEMATICS Unit 1 : Intermediate Tier Autumn 2016 | $\checkmark$ | Mark | Comment |
| :---: | :---: | :---: | :---: |
| 1.(a) 0.28 or equivalent e.g. 28/100 |  | B1 | Allow 28. |
| 1.(b) 6.35 |  | B1 |  |
| 1.(c) $(27-16=) 11$ |  | B2 | B1 for sight of 27 OR 16. |
| 1.(d) Correctly using a common denominator 3/10 OR 15/50 OR 0.3 or equivalent. |  | $\begin{aligned} & \text { M1 } \\ & \text { A1 } \end{aligned}$ | M1 for 9/10-6/10 OR 45/50-30/50 OR 0.9-0.6 OR equivalent Mark final answer. |
| 2. TRUE  <br>  TRUE  <br>   FALSE <br>  TRUEE FALSE |  | B3 | B3 for 4 or 5 correct. B2 for 3 correct. B1 for 2 correct. |
|  |  | B3 | Note Check for the required conditions being met and not the individual numbers. <br> Required conditions are: $' B=Y+5 \text { ', } B=4 R \text { ' and ' } B+Y+R=31 \text { '. }$ <br> $A$ condition must be met using non-negative integers, otherwise BO. <br> B3 all three conditions correct. <br> B2 for two conditions correct. <br> B1 for one condition correct. <br> Answer space answers take precedence. If answer spaces are left blank allow unambiguous indication of their answers. <br> A number must be given for 'Blue', else B0. Blank spaces for 'Yellow' and 'Red' to be taken as 0 unless unambiguously indicated elsewhere. |
| 4.(a) 5 |  | B2 | B1 for 5 . <br> B1 F.T. for 'their 5' - 7 if negative. |
| 4.(b) $7 \mathrm{~g}-2 \mathrm{f}$ |  | B2 | Must be an expression for B2. B1 for sight of $(+) 7 \mathrm{~g}$ OR $-2 f$. B1 for $7 \mathrm{~g}+-2 \mathrm{f}$. Mark final answer. |
| $\begin{gathered} \text { 4.(c) For sight of } 22=4+3 \mathrm{~K} \text { OR } 18=3 \mathrm{~K} \\ \text { OR } \frac{22-4}{3}(=\mathrm{K}) \\ (\mathrm{K}=) 6 \end{gathered}$ |  | B1 <br> B1 | ' $2 \times 11$ ' must be shown to be 22 and used at some stage. <br> An answer of 6 gains both B1 marks. Allow an embedded answer e.g. $2 \times 11=4+3 \times 6$ gains B2. BUT $22=4+18$ alone is BO . <br> B1B0 for $18 / 3$ as a final answer. |
|  |  | B1 | All six entries correct. |
| Ribbon marking for 5(a), 5(b) and 5(c). 5.(b) $\quad \frac{5}{12}$ |  | B2 | F.T. 'their fully completed table'. <br> Penalise -1 for only words (5 out of 12) or only ratio ( $5: 12$ ). <br> B1 for $x / 12$ if $x<12$. <br> B1 for $5 / y$ if $y>5$. |
| Ribbon marking for 5(a), 5(b) and 5(c). $\text { 5.(c) } \quad \frac{5}{12} \times 60$ |  | M1 A1 | F.T. 'their $5 / 12$ ' (including e,g, $1 / 2,50 \%, 50-50$, evens) <br> 25/60 OR 25:60 gets M1A0. <br> 25 out of 60 gets M1A1. |

| GCSE MATHEMATICS Unit 1 : Intermediate Tier Autumn 2016 | $\checkmark$ | Mark | Comment |
| :---: | :---: | :---: | :---: |
| Ribbon marking for 11(a), 11(b) and 11(c). <br> 11 (a) $\quad 6 \quad-3$ |  | B2 | B1 for each. |
| Ribbon marking for 11(a), 11(b) and 11(c). <br> 11.(b) 7 correct plots. <br> Curve drawn. |  | $\begin{aligned} & \text { P1 } \\ & \text { C1 } \end{aligned}$ | Use overlay. <br> F.T. 'their $(-1,6)$ ' and 'their $(2,-3)$ '. <br> Allow $\pm 1 / 2$ a small square'. <br> 'F.T. 'their plots'. At least 6 plots required Clear intention to draw a curve through 'their plotted points'. |
| Ribbon marking for 11(a), 11(b) and 11(c). <br> 11.(c) -0.9 and 3.4 |  | B2 | B1 for each. Allow ( $-0 \cdot 9,5$ ) and ( $3 \cdot 4,5$ ). <br> F.T. intersection of 'their curve' with $y=5$ provided exactly 2 intersections seen on graph. <br> Allow $\pm 1 / 2$ a small square'. <br> If no marks gained then SC1 for either of the following. <br> $y=5$ drawn correctly, <br> OR <br> Two correct F.T. values given for 'their straight line' and 'their curve' provided exactly 2 intersections seen on graph. |
| 11.(d) $2 x^{2}-5 x-6=0$ |  | B1 |  |
| Ribbon marking for 12(a) and 12(b). 12.(a) |  | B1 |  |
| Ribbon marking for 12(a) and 12(b). 12.(b) $\quad \frac{1}{12}$ |  | B1 | F.T. 1/'their (a)' |
| 12.(c) $\frac{1}{6}$ |  | B1 |  |
| $\begin{aligned} & \text { 13. (a) } 6 m=y-7 \text { or } y-7=6 m \text { or }-6 m=7-y \\ & m=\frac{y-7}{6} \text { or } m=\frac{7-y}{-6} \text { or } m=(y-7) \div 6 \end{aligned}$ |  | $\begin{aligned} & \hline \text { B1 } \\ & \text { B1 } \end{aligned}$ | F.T. only from $6 m=y+7$. <br> B1B0 for $-m=\frac{7-y}{6}$ or equivalent. <br> Note <br> Unsupported $m=y-7 \div 6$ is BOBO . Unsupported $\frac{y-7}{6}$ is B1BO (' m ' missing) |
| 13.(b) $6 x(x-2)$ |  | B2 | B1 for any partial correct factorisation. OR B1 for $6 x(x-\ldots)$ OR B1 for $6 x(\ldots .-2)$ |
| 14.(a) $1.5 \times 10^{3}$ |  | B2 | If B2 not awarded, B1 for sight of 1500 . OR B1 for $1.5 \times 10^{\text {n }}$ from a denominator of $5 \times 10^{3}$ seen. <br> OR B1 for $a \times 10^{3}$ with $1 \leq a<10$ from a denominator of $5 \times 10^{3}$ seen. |
| 14.(b) $6.63 \times 10^{4}$ |  | B2 | B1 for $6 \cdot 6(\ldots ..) \times 10^{4}$ if B2 not awarded. B1 for any correct answer but not in standard form. |
