

Loci & Constructions Mark Scheme

<p>1(a)</p>		<p>[1] Circle with centre A and radius of 4 cm</p>
<p>1(b)</p>		<p>[2] Semi-circles draw at A and B with radius of 2 cm and connected parallel to the line AB</p>
<p>2</p>		<p>[2] Bisector of two partial circles drawn with centres A and B, each with an equal radius larger than $\frac{1}{2} AB$ and less than AB.</p>
<p>3</p>		<p>[2] Line perpendicular to AB passing through point P</p>
<p>4(a)</p>	<p>The bisector of an angle is a line segment which divides the angle into two equal parts.</p>	<p>[1]</p>

Turn over ►

4(b)		[2] Correctly drawn angle bisector
5		[3] Interaction of two circles from point A and B with a radius of 7 cm and 5 cm respectively
6		[3] Correctly identified region R
Shown above		[3] Correctly identified region R

Turn over ►

7

[1] Perpendicular line to point *A* (or *B*) with compass lines shown

[1] Bisect the 90° angle formed with compass lines shown

[1] repeat steps 1 and 2 for other side to form triangle with compass lines shown
