GCSE MATHEMATICS
AQA | Edexcel | OCR I WJEC

## Mean, Median, Mode, and Range 2

Please write clearly in block capitals

Forename:

Surname:

## Materials

For this paper you must have:

- mathematical instruments

You can use a calculator.

## Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

## Information

- The marks for questions are shown in brackets.
- You may ask for graph paper, tracing paper and more answer paper. These must be tagged securely to this answer book.

## Advice

- In all calculations, show clearly how you work out your answer.

123 boys and 22 girls take a maths test.
The mean mark for the boys was 44.
The mean mark for the girls was 42.
Find the mean mark for all 45 students.
Give your answer to 1 decimal place.

Answer $\qquad$

2 James has a number of 6 kg sacks of carrots.
James also has number of 16 kg sacks of carrots
The mean weight of the sacks of carrots is 12 kg .
What is the smallest number of 6 kg and 16 kg sacks James could have.
You must show your working.

Answer $\qquad$

3 Christopher has seven rabbits in his garden.
Their weight in kilograms is listed below.
$1.1, \quad 1.9, \quad 1.5, \quad 1.3, \quad 2.0, \quad 1.3, \quad 1.7$
3(a) What is the mean, mode, and median, for the weight of the rabbits?
$\qquad$
$\qquad$
$\qquad$
Mean $=$ $\qquad$
Mode = $\qquad$
Median = $\qquad$

3(b) Calculate the range for the weight of the rabbits.
$\qquad$
$\qquad$
Answer $\qquad$

3(c) Two of the rabbits are placed into their hutch.
The mean weight of the remaining five rabbits is now 1.6 kg .
Give the weight of the two rabbits that were placed in the hutch.

4 Sarah earns $£ 8.43$ per hour.
She thinks that most of her friends are paid more.
She creates a list of how much her friends earn per hour.

| Jenny | $£ 8.40$ |
| :---: | :---: |
| Helen | $£ 8.48$ |
| Peter | $£ 8.29$ |
| Simon | $£ 8.55$ |
| Jane | $£ 8.48$ |
| Amy | $£ 8.44$ |

Is Sarah correct?
Calculate the mean, median, and mode for this data set to support your answer.

Answer $\qquad$

5 Jane is investigating how long it takes people to complete a jigsaw. She records their times below.

$$
\text { 14, } 17, \quad 27, \quad 11, \quad 19, \quad 14, \quad 18, \quad 13, \quad 22, \quad 25
$$

5(a) What is the modal time?

Answer $\qquad$

5(b) What is the median time?
$\qquad$
$\qquad$
Answer

5(c) Calculate the mean and range for this data set.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
Mean = $\qquad$
Range = $\qquad$

$6 \quad$ A school is investigating how much their students use social media. They gave their results, measured in minutes, in the table below.

| Student | Facebook | Twitter |
| :---: | :---: | :---: |
| A | 62 | 37 |
| B | 112 | 130 |
| C | 172 | 205 |
| D | 26 | 98 |
| E | 91 | 10 |

Work out the difference in the mean time spent on Facebook and Twitter.
