GCSE MATHEMATICS
AQA | Edexcel | OCR I WJEC

## Upper and Lower Bounds

Please write clearly in block capitals

Forename:
Surname:

## Materials

For this paper you must have:

- mathematical instruments

You can use a calculator.

## Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

## Information

- The marks for questions are shown in brackets.
- You may ask for graph paper, tracing paper and more answer paper. These must be tagged securely to this answer book.

## Advice

- In all calculations, show clearly how you work out your answer.

1(a) A wooden toy is 6 cm tall to the nearest cm .
Find the upper and lower bounds for the height of the toy.
$\qquad$
$\qquad$
$\qquad$

Answer $\qquad$
(b) $\quad$ The mass of the toy is 2.2 kg to the nearest 0.1 kg .

Find the error interval, in which the true mass of the toy, $m$, lies
$\qquad$
$\qquad$
$\qquad$
$\qquad$ $\leq m<$ $\qquad$

1(c) The length of a log is measured exactly to be 55.6 m .
Calculate the length of the log truncated to the nearest meter.

2 A diagram of a rectangular garden is shown below.
Each length is measured to the nearest 0.1 m

4.1 m

Calculate minimum and maximum possible values for area of the garden.
Give your answers to 1 decimal place.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
Maximum area:
$\mathrm{m}^{2}$
Minimum area: $\qquad$ $\mathrm{m}^{2}$

## Turn over for next question

3 The distance from Sarah's house to Peter's house is 230 miles measured to the nearest 10 miles.

Sarah took exactly 4 hours to complete this journey.
Sarah says:
"My average speed was 60 mph for the journey to Peter's house"
Is Sarah correct?
You must explain your answer
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

Answer $\qquad$

## GCSE Maths Revision Cards

5 The dimensions of a cuboid container are shown below.
Each length has been measured to 1 decimal place.

5(a) Calculate the upper bound for the volume of the cuboid.
Give you answer to 2 decimal places.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
Answer $\qquad$ $\mathrm{cm}^{3}$

Question continues on next page

5(b) Joe has a bucket containing $1370 \mathrm{~cm}^{3}$ of water measured to the nearest $10 \mathrm{~cm}^{3}$. Joe Says
"If I tip my bucket of water in the cuboid container, it will never overflow"
Is Joe correct?
You must explain your answer
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
Answer $\qquad$

## Turn over for next question

$6 \quad$ A ball is dropped from a height of $d$ meters.
The time, $t$ seconds, taken for the ball to reach the ground is given by

$$
t=\sqrt{\frac{2 d}{g}}
$$

where $g$ is the acceleration due to gravity.
$d=12.4 \mathrm{~m}$ correct to 3 significant figures
$g=9.8 \mathrm{~m} / \mathrm{s}^{2}$ correct to 2 significant figures.

6(a) Find the lower bound of $d$.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
Answer $\qquad$

6(b) $\quad$ Find the minimum value of $t$.
Give your answer to 2 decimal places.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
Answer $\qquad$
