Pearson Edexcel GCSE
In Combined Science (1SC0) Paper 1PF

## Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

## Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at:www.pearson.com/uk

## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Mark schemes have been developed so that the rubrics of each mark scheme reflects the characteristics of the skills within the AO being targeted and the requirements of the command word. So for example the command word 'Explain' requires an identification of a point and then reasoning/justification of the point.
Explain questions can be asked across all AOs. The distinction comes whether the identification is via a judgment made to reach a conclusion, or, making a point through application of knowledge to reason/justify the point made through application of understanding. It is the combination and linkage of the marking points that is needed to gain full marks.
When marking questions with a 'describe' or 'explain' command word, the detailed marking guidance below should be consulted to ensure consistency of marking.

| Assessment <br> Objective |  | Command Word |  |
| :--- | :--- | :--- | :--- |
| Strand | Element | Describe | Explain |
| AO1* | An answer that combines the <br> marking points to provide a <br> logical description | An explanation that links <br> identification of a point with <br> reasoning/justification(s) as <br> required |  |
| AO2 | An answer that combines the <br> marking points to provide a <br> logical description, showing <br> application of knowledge and <br> understanding | An explanation that links <br> identification of a point (by <br> applying knowledge) with <br> reasoning/justification <br> (application of understanding) |  |
| AO3 | 1 a and <br> $1 b$ | An answer that combines points <br> of interpretation/evaluation to <br> provide a logical description |  |
| AO3 | 2a and <br> $2 b$ |  | An explanation that combines <br> identification via a judgment to <br> reach a conclusion via <br> justification/reasoning |
| AO3 | 3a | An answer that combines the <br> marking points to provide a <br> logical description of the <br> plan/method/experiment |  |
| AO3 | $3 b$ |  | An explanation that combines <br> identifying an improvement of <br> the experimental procedure with <br> a linked justification/reasoning |

*there will be situations where an AO1 question will include elements of recall of knowledge directly from the specification (up to a maximum of $15 \%$ ). These will be identified by an asterisk in the mark scheme.

| Question <br> number | Answer |  | Additional <br> guidance |
| :--- | :--- | :--- | :--- |
| $\mathbf{1 a ( i )}$ | C Mark   <br> ultraviolet infrared radio  AO1 <br> A is incorrect infrared should be in <br> K, radio should be in L and ultraviolet <br> in J, <br> B is incorrect radio should be in L <br> and ultraviolet should be in K <br> D is incorrect radio should be in L and <br> infrared in K  |  |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 1a (ii) | C speed | (1) <br> amplitude, frequency and <br> wavelength are not the same for <br> all EM waves | AO1 |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| (b) (i) | One from: <br> seeing (broken) bones (1) <br> radiotherapy (1) <br> detecting cracks in metals (1) <br> airport security (1) <br> observing the internal structure of <br> objects(1) | seeing inside the <br> body | AO1 |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 1(b) (ii) | One from: | AO1 |  |
| can cause cancer (1) |  |  |  |
| can cause burns(1) |  |  |  |
| $\left\{\begin{array}{l}\text { \{damage/kills/harms }\} \text { cells/tissue } \\ \text { (1) } \\ \text { mutates DNA/cells (1) }\end{array}\right.$ | harms organ(s) / <br> foetus <br> allow (highly) <br> ionising |  |  |

| Question <br> number | Answer | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{1 ( c )}$ | infrared (1) | must be in first <br> sentence space | (2) <br> must be in second <br> sentence space <br> award 2 marks for <br> answers in this order |

Total marks for question 1 = $\mathbf{6}$ marks

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 2 (a)(i) | substitution (1) <br> $(\Delta \mathrm{GPE}=) 64 \times 10 \times 24$ | (2) <br> AO2 <br> evaluation (1) <br> $15000(\mathrm{~J})$ | accept $15360(\mathrm{~J})$ <br> or 15 400(J) <br> award full marks for <br> correct answer <br> without working. |

| Question <br> number | Answer | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{2 ~ ( a ) ( i i )}$ | substitution (1) <br> $(\mathrm{KE}=)^{1 / 2} \times 64 \times 6^{(2)}$ <br> calculation of $6^{2}(1)$ <br> evaluation (1) <br> $1200(\mathrm{~J})$ | (3) <br> AO2 |  |
|  |  | accept 1152(J) <br> award full marks for <br> correct answer <br> without working. <br> $192(J)$ scores 2 <br> marks |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 2(a)(iii) | an explanation linking any tw o <br> from: <br> the kinetic energy (store)/it <br> decreases (to zero) (1) <br> (the energy) has dissipated (1) <br> to the surroundings (1) <br> transferred <br> (2) <br> thermal energy (store) <br> increases (1) | tods <br> make the brakes hot |  |

| Question <br> number | Answer | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |

| 2 (b)(i) | $5000(\mathrm{~J})$ | $24000-19000$ | $(\mathbf{1 )}$ |
| :--- | :--- | :--- | :--- |
| AO2 |  |  |  |

| Question <br> number | Answer | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{2 ~ ( b ) ( i i )}$ | substitution (1) <br> $($ efficiency $=) \frac{19000(\times 100 \%)}{24000}$ | evaluation(1) <br> 0.79 or 79\% | allow 0.8 <br> do not award 79 <br> without percentage <br> award full marks for <br> correct answer <br> without working. |

Total marks for Question $2=10$

| Question <br> number | Answer | Additional guidance | Mark |
| :---: | :--- | :--- | :--- |
| 3(a)(i) | D travelling more slowly <br> A is incorrect, more passengers <br> would increase the stopping <br> distance <br> B is incorrect, worn tyres would <br> increase the stopping <br> distance | (1) <br> AO1 <br> incorrect, if the car needed <br> new brakes this would <br> increase the stopping <br> distance |  |

$\left.\begin{array}{|l|l|l|l|}\hline \begin{array}{l}\text { Question } \\ \text { number }\end{array} & \text { Answer } & \text { Additional guidance } & \text { Mark } \\ \hline \mathbf{3} \text { (a)(ii) } & \begin{array}{l}\text { identification of horizontal line } \\ \text { as reaction time (1) }\end{array} & \begin{array}{l}\text { (2) } \\ \text { AO3 } \\ 0.6(\mathrm{~s})\end{array} & \begin{array}{l}\text { award full marks for } \\ \text { correct answer } \\ \text { without working }\end{array} \\ 0.7 \text { scores 1 mark }\end{array}\right]$

| Question <br> number | Answer | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{3}$ (b) | A description including two <br> from <br> let the car roll down the slope <br> from the same point on the <br> slope (1) <br> measure distance it travels <br> (along horizontal surface) <br> (1) | see how far it travels <br> allow time it takes to <br> stop | AO1 <br> change the surface/ use <br> different surfaces (1) |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 3(c)(i) | 0.52 |  | (1) <br> AO3 |

| Question <br> number | Answ er | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{3 ( c ) ( \text { ii) }}$ | addition and division (1) |  | (2) <br> AO2 <br> evaluation (1) <br> $0.35(\mathrm{~m})$ |
|  | accept 0.345 (m) <br> award full marks for correct <br> answer without working. <br> accept <br> 0.38 for 2 marks (five <br> results included in average |  |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 3ciii | Any one from | (1) <br> accept 'higher <br> slope/high slope | AO1 |
|  | add more books/blocks (1) |  |  |
| push/pull the trolley (1) | accept means of <br> reducing friction <br> e.g. use lubricant |  |  |

$\left.\begin{array}{|l|l|l|l|}\hline \begin{array}{l}\text { Question } \\ \text { number }\end{array} & \text { Answer } & \begin{array}{l}\text { Additional } \\ \text { guidance }\end{array} & \text { Mark } \\ \hline \mathbf{3 ( d )} & \begin{array}{l}\text { substitution (1) } \\ (\mathrm{a}=) \frac{12-2(.0)}{4(.0)}\end{array} & \begin{array}{l}\text { (2) } \\ \text { evaluation (1) } \\ 2.5\left(\mathrm{~m} / \mathrm{s}^{2}\right)\end{array} & \begin{array}{l}\text { award full marks for } \\ \text { correct answer } \\ \text { without working. }\end{array}\end{array}\right\}$

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{4}$ (a) | B force |  | (1) <br> AO1 <br> quantity |
| C is incorrect, energy is a scalar <br> quantity <br> D is incorrect, distance is a <br> scalar quantity |  |  |  |

| Question <br> number | Answ er | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |
| 4 (b)(i) | A plan including four of the <br> following <br> measurement of appropriate <br> distance (1) <br> measurement of appropriate <br> time (1) <br> use of speed = distance (1) | (4) <br> AO3 |  |
| detail (1) <br> e.g. repeat and average, use <br> ruler/stop clock, <br> mark a line near the top and <br> bottom of liquid |  |  |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 4(b)(ii) | An explanation linking tw o <br> from: <br> add more lines (at equal <br> distances)(1) | (2) <br> use longer test tube / <br> use different heights <br> of liquid / use <br> different sections of <br> the liquid |  |
|  | measure the time of fall for <br> each distance (1) <br> compare the times (1) | e.g. \{ equal times <br> =constant speed\} / <br> =shorter time <br> acceleration\} |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 4(c) | substitution (1) |  | (2) |
|  | $\left(\mathrm{v}^{2}-0=\right) 2 \times 10 \times 1.5$ | AO2 |  |
| evaluation (1) | $5.5(\mathrm{~m} / \mathrm{s})$ | accept numbers that <br> round to 5.5 e.g. <br> 5.477 <br> $30(\mathrm{~m} / \mathrm{s})$ gains 1 <br> mark for correct <br> substitution but no <br> square root taken |  |
|  |  | award full marks for <br> correct answer <br> without working. |  |

Total marks for question $4=9$

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 5(a) | uses data taken from x axis (1) |  | (2) <br> AO3 |
|  | $28(\mathrm{~cm})(1)$ | award full marks <br> for correct answer <br> without working |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{5} \mathbf{b ( i )}$ | a description to include <br> count the number of waves(1) <br> (arriving/passing a point) in a <br> specific time(1) | (3) <br> AO1 <br> ignore in one <br> second | use <br> frequency = number of waves <br> time (1) |
| count the number <br> of waves in one <br> second scores 2 <br> marks (MP1 and <br> MP3) | find the time <br> between one <br> wave and the next <br> scores 2 marks <br> (MP1 and MP2) |  |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{5 ~ b ( i i ) ~}$ | substitution (1)  <br>  $1.5=0.7 \times \lambda$ | (2) <br> rearrangement and evaluation <br> $2.1(4) \mathrm{m}$ | allow $\frac{0.7}{1.5}$ <br> for 1 mark |
|  |  | AO2 <br> awrd full marks for <br> without working. <br> $\lambda=$ v/f scores 1 mark |  |

| Question <br> number | Answer | Additional guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{5 ~ b ( i i i ) ~}$ | A description to include: <br> mention of <br> oscillations/vibrations (1) | up and down OR side <br> to side (movements) <br> OR back and forth | (2) <br> AO1 <br> ElTHER <br> transverse - (oscillations) <br> perpendicular to direction of <br> wave (travel) (1) <br> OR <br> longitudinal - (oscillations) in <br> same direction as wave <br> (travel) (1) |
| (tansverse movement |  |  |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 5 (c) | substitution <br> $(\mathrm{x})=330 \times 4.0$ <br> evaluation <br> $1300(\mathrm{~m})$ | (2) <br> AO2 |  |
| accept $1320(\mathrm{~m})$ |  |  |  |
| award full marks for |  |  |  |
| correct answer |  |  |  |
| without working. |  |  |  |\(\quad\left\{\begin{array}{l} <br>

\hline\end{array}\right.\)

Total marks for Question 5 = 11

| Question <br> number | Answer | Mark |
| :--- | :--- | :--- |
| $\mathbf{6 ( a )}$ | B ionising and emitted by unstable nuclei <br> A is incorrect stable nuclei do not give radioactive <br> emissions <br> C is incorrect not all radioactive emissions are neutral <br> D is incorrect not all radioactive emissions are neutral | (1) <br> AO1 |

| Question number | Answer | Additional guidance | Mark |
| :---: | :---: | :---: | :---: |
| 6(b) | same number of protons (1) <br> different number of neutrons <br> (1) | same atomic number <br> different mass number | $\begin{aligned} & \text { (2) } \\ & \text { AO2 } \end{aligned}$ |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{6 ( c ) ( i )}$ | An explanation to include; <br> there is no alum inium to absorb $\beta$ <br> particles (1) | aluminium <br> absorbs/stops/blocks <br> beta particles | AO2 <br> (therefore) <br> more $\beta$ particles reach the G-M <br> tube (1) |
| accept reverse <br> arguments <br> accept radiation for <br> beta particles |  |  |  |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| $\mathbf{6}$ c (ii) | (idea of) background radiation | a named source <br> of background <br> radiation | (1) <br> AO3 |

| Question <br> number | Answer | Additional <br> guidance | Mark |
| :--- | :--- | :--- | :--- |
| 6c (iii) | becquerel | accept Bq <br> accept close <br> spelling | (1) <br> AO1 |

$\square$

| Question number | Indicative content | Mark |
| :---: | :---: | :---: |
| 6d* | Answers will be credited according to candidate's deployment of knowledge and understanding of the material in relation to the qualities and skills outlined in the generic mark scheme. <br> The indicative content below is not prescriptive and candidates are not required to include all the material which is indicated as relevant. Additional content included in the response must be scientific and relevant. <br> Dangers of exposing people to radioactive sources/ radiation. <br> - it is ionising <br> - may cause cancer <br> - may destroy / kill cells <br> - can mutate DNA <br> - can burn the skin <br> Protection of hospital staff using radioactive sources/ radiation. <br> - use tongs to carry radioactive sources <br> - use lead containers to store sources <br> - stay at a distance from radioactive sources <br> - use sources for as short a time as possible <br> - wear (lead lined) protective clothing (PPE) <br> - give treatments from behind a shield /wall <br> - wear a radiation badge (dosimeter) | $\begin{aligned} & \text { (6) } \\ & \text { AO1 } \end{aligned}$ |

| Level | Mark | Descriptor |
| :--- | :--- | :--- |
|  | 0 | No rewardable material. |
| Level 1 | $1-2$ | Demonstrates elements of physics understanding, some of <br> which is inaccurate. Understanding of scientific, enquiry, <br> techniques and procedures lacks detail. (AO1) <br> Presents a description which is not logically ordered and <br> with significant gaps. (AO1) |
| Level 2 | $3-4$ | Demonstrates physics understanding, which is mostly <br> relevant but may include some inaccuracies. Understanding <br> of scientific ideas, enquiry, techniques and procedures is not <br> fully detailed and/or developed. (AO1) <br> Presents a description of the procedure that has a structure <br> which is mostly clear, coherent and logical with minor steps <br> missing. (AO1) |
| Level 3 | $5-6$ | Demonstrates accurate and relevant physics understanding <br> throughout. Understanding of the scientific ideas, enquiry, <br> techniques and procedures is detailed and fully developed. <br> (AO1) |

|  | Presents a description that has a well-developed structure <br> which is clear, coherent and logical. (AO1) |
| :--- | :--- | :--- |

| Level | Mark | Additional Guidance | General additional guidance - the <br> decision within levels |
| :--- | :--- | :--- | :--- |
| e.g. - At each level, as well as content, |  |  |  |
| the scientific coherency of what is stated |  |  |  |
| will help place the answer at the top, or |  |  |  |
| the bottom, of that level. |  |  |  |$|$| Level 1 | $1-2$ | Additional guidance <br> At least one isolated fact <br> about the dangers of <br> radiation and/or <br> protection from radiation | Possible candidate responses <br> it's ionising <br> causes cancer <br> burns you <br> kills cells <br> mutates DNA <br> wear a radiation badge <br> use tongs <br> work from behind a shield <br> use protective clothing |
| :--- | :--- | :--- | :--- |
| Level 2 | $3-4$ | Additional guidance <br> simple explanation of <br> the dangers of radiation <br> and a fact about <br> protection or reverse <br> OR <br> detailed explanation of <br> the <br> dangers of radiation or <br> protection from radiation | Possible candidate responses <br> radiation is ionising and can kill cells <br> so wear a radiation badge <br> or <br> use tongs and stay at a distance from <br> radiation source as it can cause cancer <br> or <br> use tongs to stay at a distance from <br> radiation sources and wear a radiation <br> badge |
| $5-6$ | Additional guidance <br> detailed explanation of <br> the <br> dangers of radiation and <br> protection from radiation | Possible candidate responses <br> radiation is ionising and can kill cells <br> and <br> use tongs and stay at a distance from <br> the radiation source |  |
|  |  |  |  |
